Examples of *Ineligible* Expenses for Standard Health FSAs:

We're commonly asked which expenses are not eligible for payment. Here are some examples, but the list is not all inclusive.

- Canceled Appointment Fees
- Drugs or treatments that are illegal under Federal law
- Cosmetic Surgery, Treatments, or Procedures
- Toiletries or Sundry Items
- Vitamins or Supplements for General Health
- Food and meals that replace regular nutritional requirements
- Household cleaning products, including surface cleaning wipes
- Face shields, neck gaiters, or face masks with vents/valves

Personal care items or services for general health are not usually eligible, but if your health care provider recommends an otherwise personal product or service to treat a specific diagnosis, you can submit the expense for reimbursement with a *Letter of Medical Necessity*.

This is a letter from your health care provider that includes a recommendation of the item or service to treat your diagnosis, and the duration of the recommendation. Depending on the expense, you may have to provide additional documentation to show the expense would not have been incurred "but for" the medical condition.

Sometimes a personal or general use item may be specialized for the specific purpose of treating or alleviating a medical condition. In this case, only the excess cost of the specialized item over the non-specialized item can be reimbursed. A *Letter of Medical Necessity* may be requested for these items as well.
