Garrett-Evangelical Theological Seminary, a graduate school of theology related to The United Methodist Church, was founded in 1853. Located on the campus of Northwestern University, the seminary serves students from various denominations and cultural backgrounds, fostering an atmosphere of ecumenical interaction. Garrett-Evangelical creates bold leaders through master of divinity, master of arts, master of theological studies, doctor of philosophy, and doctor of ministry degrees. Its 4,500 living alumni serve church and society around the world.

Garrett Financial Aid Website

Types of Financial Aid

Listed below are the different types of financial aid available to students who qualify. For more detailed information about each type of aid, please see later sections of this manual.

Gift Aid (Scholarships, Fellowships, and Grants)
Gift aid can come directly from Garrett-Evangelical or other outside sources. As the name implies, gift aid does not have to be paid back.

Institutional Scholarships – Master's Degrees
Garrett-Evangelical awards scholarships to master’s level, degree-seeking students at the time of admission to recognize merit, leadership, service, and accomplishment. Scholarships cover a percentage of a student's tuition while enrolled for a degree; that percentage remains constant, as long as the student meets both the registration and GPA requirements of the scholarship.

Institutional Scholarships – Doctoral Degrees
Garrett-Evangelical awards fellowships to PhD at the time of admission. Fellowships cover a fixed percentage of the student's tuition while enrolled for the degree. The fellowship covers all coursework, research tools, a semester of pre-candidacy, and two semesters of candidacy. Doctor of Ministry students receive a 50% scholarship for each of the six tuition installments.

Outside Grants
Outside (non-institutional) grants and scholarships are typically awarded by denominational foundations, conferences, and/or local churches. Any outside scholarship awarded to a student must be reported to the Office of Financial Aid, as the award could impact the eligible amount of federal financial aid.

Veteran Benefits
Garrett-Evangelical is approved to certify Veterans Affairs (VA) benefits. Eligible students must submit a copy of their Certificate of Eligibility to the Registrar's Office when they first enroll. Registrations are confirmed with the VA each term.

Loan Aid
Loan aid is borrowed money that must be repaid with interest. There are both federal and private sources of loan aid, though the large majority of loan aid is federal.
Federal Direct Loans
The Federal Direct Unsubsidized Stafford and Federal Direct Graduate PLUS loan are offered to eligible students. To determine eligibility, a student must complete and submit the Free Application for Federal Student Aid (FAFSA) each year of enrollment. For the 2023-2024 academic year, students will need to complete the 2023-2024 FAFSA using 2021 tax documentation. For details on federal loans, please visit www.studentaid.gov.

Private Loans
A variety of banks and other agencies offer student loans, but it is highly recommended that students take advantage of the Federal Direct Loans first, since they typically offer better repayment options, benefits, and interest rates. Before considering borrowing a private student loan, please contact the Office of Financial Aid.

Work Aid
Work aid is a broad category that includes a variety of employment options. Federal Work-Study, field education stipends, teaching and research assistantships, and personal employment opportunities are all considered work aid.

Federal Work-Study (FWS)
Federal Work-Study is a need-based financial aid award. To determine eligibility, a student must complete and submit the FAFSA each year of enrollment. Those who qualify and secure a FWS position are paid an hourly wage, which is subsidized by the federal government, and are issued paychecks typically every two weeks. Only jobs at Garrett-Evangelical or at other pre-approved sites are eligible for FWS funding.

Field Education
Students in the Master of Divinity program must complete two field education units as a requirement of the degree. A $4,500 stipend is awarded during each year to help support students financially during these important experiences.

Teaching Assistants, Classroom Assistants, and Research Assistants
TA, CA, and RA positions are available, primarily to doctoral students, throughout the year. The accompanying stipends are paid to these assistants at the end of the semester or term of service.

Personal Employment
Many students work part-time in an off-campus job to help cover their personal expenses. These positions typically do not qualify for FWS funding.

Additional Sources of Aid
Families, home churches, conferences, districts, presbyteries, parishes, dioceses, etc. can often be important and generous sources of financial assistance. The Office of Financial Aid and the Office of Development at Garrett-Evangelical happy to assist students in asking others for financial assistance.
Tuition and Fees for 2023-24

In the interest of full disclosure and for the purpose of student financial planning, Garrett-Evangelical provides the following list of tuition and fees assessed directly to students as required. The Tuition & Fees Sheet can also be found on Garrett’s [website](#).

Housing costs (if living on campus) can also be found on Garrett’s [website](#).

**Cost of Attendance**

Cost of Attendance (COA) is the estimated total amount it costs to attend an educational institution for an academic year. This includes all allowable expenses such as tuition, room, meals, books and supplies, reasonable personal expenses. *A student's actual expenses may differ from their COA, but the total amount of financial aid (scholarships, grants, loans, and work-study) cannot exceed their COA.*

Educational institutions determine a COA figure each academic year for two reasons: 1) to give students an estimate of the total costs involved in attending, and 2) to determine, according to mandatory federal guidelines, the amount of federal financial aid students are eligible for that year.

Typically, COA budgets are based on nine months of full-time attendance (September-May), but adjustment can be made according to the student's actual enrollment.

Cost of Attendance (COA) is made up of two different types of costs: direct and indirect.

**Direct costs** (also known as billable costs) are billed to the student's account and include items such as tuition, fees, and Garrett-based housing.

**Indirect costs** do not appear on a student's account. They are the estimated costs of expenses, such as books and transportation. For those not living in Garrett-based housing, indirect costs also include food and housing expenses (also known as living expenses). When determining the estimated living expenses portion of the COA for an academic year, the Garrett Financial Aid Committee uses a College Board formula, which is based on costs in the Chicago metropolitan area.

It is important to remember that indirect costs are estimates. If a student has other costs related to their education that exceed the COA, the Office of Financial Aid can review documentation on a case-by-case basis.

### Institutional Scholarships

**Master-Degree Level Scholarships**

**Awards:** The Admission and Scholarship Committee at Garrett-Evangelical is charged with awarding institutional scholarships to incoming students. Priority consideration is given to students who complete their applications by February 1 (March 1 for international students) for the following fall admission. Students entering under probation status may not be eligible for an award.

Each scholarship or grant covers a specified percentage of tuition for each credit hour taken, up to the total required to complete the degree.

Scholarships and grants also apply to credit hours taken during Summer and January terms.

**Stipulations:** Institutional scholarships stipulate minimum registration and a minimum GPA. If students do not maintain minimum registration, they are not eligible for scholarship. The only exception to the minimum enrollment stipulation is for students who are in the last semester of their degree; they may register as part-time students and still receive their
scholarships at the full-time enrollment rate. You may petition to keep your scholarship at less than half-time enrollment by emailing financial.aid@garrett.edu if you have specific circumstances allowing you to only take one course for a given term.

Institutional scholarships also require students to maintain a cumulative 3.0 GPA and good academic standing. Students who do not meet their scholarship GPA requirement or are placed on academic probation may have their scholarships reduced to 25%.

All scholarship stipulation requirements are reviewed at the time of awarding for each semester/term.

In addition, scholarships may require recipients to write letters of appreciation annually to the donor(s) of the award or share other acts of thanksgiving.

Scholarships do not cover off-site Clinical Pastoral Education (CPE) costs but do cover CPE tuition costs at the student's stipulated scholarship percentage rate.

Except in the cases of pre-approved leaves of absence, students who are not enrolled over the course of a year forfeit their scholarships.

The Admission and Scholarship Committee retains the ability to revise scholarships under special circumstances on a case-by-case basis.

**Doctor of Philosophy Scholarship Awarding and Stipulations**

The typical PhD award is 100% of tuition. A PhD scholarship covers the cost of the earned credit hours, one semester of pre-candidacy (exam preparation), and two semesters of candidacy (dissertation) required to complete the program.

A PhD student taking a research tool outside of Garrett-Evangelical may receive the same scholarship rate to cover the cost of the outside course (e.g., If a German language course at the University of Chicago is $1500, a Garrett PhD student with a 100% scholarship would be eligible for a $1500 scholarship.) To receive the scholarship, a student must submit a completed Research Tool Intention Form to the Garrett-Evangelical Financial Aid Office, along with a paid invoice for the course. A language course cannot exceed the cost of 3 credit hour Garrett course ($4275).

**Doctor of Ministry Funding**

Doctor of ministry cohort tracks, except for the ACTS preaching program, receive a 50% scholarship for each of the six tuition installments.

**Borrowing Federal Direct Loans**

Garrett-Evangelical participates in the Direct Student Loan program and therefore offers Direct Unsubsidized Loans and Graduate Plus Loans to its students who are U.S. citizens, permanent residents, or eligible non-citizens. Both loans require a student to 1) file a Free Application for Federal Student Aid (FAFSA) to establish eligibility, and 2) enroll on at least a part-time basis in a degree program.
Neither loan requires the borrower to demonstrate financial need, but a student may not borrow above their Cost of Attendance (see Cost of Attendance section).

The Department of Education assigns a servicer to the borrower when the loan funds are disbursed. Students must continue to maintain satisfactory academic progress (SAP) to be eligible for federal loan aid. Neither of these loan programs penalizes a borrower for early repayment.

**Federal Direct Unsubsidized Loan**

Graduate students may borrow up to $20,500 annually. The aggregate loan limit, which includes undergraduate federal loans borrowed, is $138,500.

A credit check is not required for an Unsubsidized Loan. You will automatically receive this loan as part of your financial aid offer if you are eligible and have completed a 23-24 FAFSA.

The loan has a fixed interest rate that is recalculated each year by the Department of Education. The graduate Unsubsidized Loan rate for 2023-24 is 7.05%.

The Department of Education assesses a 1.057% origination fee that is deducted at the time of each loan disbursement. Therefore, the total amount a borrower receives at each disbursement will be 1.057% less than what the student borrowed for that period of enrollment. The borrower is responsible for repaying the total amount borrowed, however.

Interest accrues on these loans while the student is in school and during the six-month grace period after separation, or if the student falls below half-time status.

Repayment begins six months after the borrower graduates or when the student drops below part-time enrollment.

For more details on the Direct Unsubsidized Loan, you may visit [studentaid.gov](http://studentaid.gov).

**Federal Direct Graduate PLUS Loan**

If you have already borrowed your aggregate Unsubsidized Loan and need further assistance, you can apply for a Direct PLUS Loan. A credit check is required and conducted by the Department of Education. If a student does not pass the credit check, a qualified endorser (cosigner) may be used to qualify for the loan, or a student may appeal the credit decision. A student may borrow a PLUS Loan up to the difference between the Cost of Attendance and other financial aid.

The loan has a fixed interest rate that is recalculated each year by the Department of Education. The Graduate PLUS Loan rate for 2023-24 is 8.05%. There is also a 4.228% origination fee that will be deducted from the loan once disbursed.

Interest accrues on these loans while the student is in school and during the six-month grace period after separation, or if the student falls below half-time status.

Repayment begins six months after the borrower graduates or when the student drops below part-time enrollment.

For more details on the Direct Graduate PLUS Loan, you may visit [studentaid.gov](http://studentaid.gov).
Applying for Federal Loans

Step One – Complete the annual FAFSA
A student seeking federal loans must complete an online Free Application for Federal Student Aid (FAFSA) at studentaid.gov.

The 2023-24 FAFSA requires students to use 2021 tax documents. Students may complete the 2023-24 FAFSA (used only to calculate eligibility for the 22-23 academic year) after October 1, 2022. If you have completed this FAFSA already for another institution, you can simply make a “correction” to the FAFSA and add our school code below. Garrett-Evangelical’s school code FAFSA code is: G01682.

To be eligible for federal aid, a student must have a high school diploma or GED. The institution admits as regular students only persons who have a high school diploma; and/or, have the recognized equivalent of a high school diploma; and/or are beyond the age of compulsory school attendance in Illinois. Garrett has the right to evaluate the validity of high school completion if it has reason to believe that the high school diploma or GED is not valid or was not obtained from an entity that provides secondary school education.

Step Two – Accept your loan
After the Financial Aid Office receives a student’s FAFSA information, a financial aid offer email is created and sent to the student’s Garrett email address and email listed on the FAFSA. The aid offer email will include institutional scholarship and federal loan eligibility.

Students will be directed to their Financial Aid Portal to accept or reduce the amount of the loan offered. The Financial Aid Office cannot process a student’s loan until the student has completed this step.

Step Three – Complete a Master Promissory Note and Entrance Counseling
Students borrowing for the first time at Garrett-Evangelical must complete a Master Promissory Note and Entrance Counseling and at studentaid.gov (under Complete Aid Process tab). Once a student completes both processes (each takes about 20 minutes), a receipt of completion is sent to the student.

Given all of the above is complete by the start of classes, a student’s Direct Loan will disburse approximately 2-3 weeks after classes begin. If a refund is due to the student, the funds will be provided within two weeks of disbursement. Loans can be applied for after the term begins, but in order to have sufficient time to process the loan, we ask that you make the request at least one month prior to the end of the term.

Federal Verification Policy

Verification is a federal financial aid process that ensures the information submitted on a student’s Free Application for Federal Student Aid (FAFSA) is correct. If a student completes a FAFSA and is selected for the verification process, the student will be required to submit documentation to the Financial Aid Office. Financial Aid will reach out to the student directly
regarding what information is required, which can vary by student. Students are typically selected for verification randomly by the Department of Education. The verification process will need to be completed before a student can receive any federal aid (federal work study and/or Direct Loans). The deadline to submit the verification documents is four weeks prior to the end of the term for the term that the aid is being processed. Specific 2023-2024 Federal Verification Guidelines are available online.

Satisfactory Academic Progress (SAP)

Federal regulations require educational institutions to review regularly the academic progress of students who receive federal financial aid. At Garrett-Evangelical, reviews are conducted at the end of each semester (fall, J-Term, spring, and summer). Both qualitative and quantitative measures are used to assess Satisfactory Academic Progress (SAP) toward the completion of a student’s degree. Students who fail to meet SAP may become ineligible to receive federal financial aid until they are in compliance with these requirements. Satisfactory academic progress should not be confused with academic probation. For more information on academic probation please refer to the Academic Handbook.

Qualitative Standard
A minimum cumulative grade point average (GPA) is a qualitative standard required to maintain SAP. The minimum cumulative GPA required to meet SAP reflects the minimum GPA required for the completion of a degree. Master’s degree and Doctor of Ministry Students must maintain a 2.5 GPA, and Doctor of Philosophy Students must maintain a 3.0 GPA. The Office of the Registrar verifies student GPAs at the end of each semester.

Quantitative Standard
To demonstrate SAP using a qualitative standard, students must continue to complete successfully 70% of all attempted credit hours. The total attempted credit hours are compared with the total number of successfully completed credit hours for the semesters/terms attended, regardless of whether or not financial aid was received. For example, first-year students who have attempted 27 credit hours by the end of their second semester must successfully complete at least 19 of those credit hours.

Maximum Time Frame
The maximum time frame for federal financial aid mirrors the academic limits for each degree program. Leaves of absence count toward these time limits.

Master of Divinity program – 8 years (32 consecutive semesters)
Master of Arts and Master of Theological Studies – 6 years (24 consecutive semesters)
Doctor of Ministry – 6 years (24 consecutive semesters)

Doctor of Philosophy – 5 years (20 semesters) for course work
5 years (20 semesters) for pre-candidacy and candidacy
No more than a total of 8 years (32 semesters)
Appeals approved by the PhD committee may allow leaves of absence to not count toward these time limits.
Clarification of Course Notation
Transfer credit hours are considered hours attempted and earned, and do not affect the student's GPA.

Audited courses neither affect attempted hours nor GPA.

Pass/Fail courses count toward the total of attempted credit hours and if passed, earned hours. If failed, the course impacts the GPA.

Repeated courses, if passed, nullify the previous failed credit hours attempted and GPA. The repeated course is then treated like any other normal for-grade course. If the course is failed again, both failed courses attempted hours and GPA are counted.

Incomplete courses are either rendered failed or withdrawn, as courses cannot be permanently left as incomplete.

Withdrawn courses impact attempted credit hours, but do not affect GPA.

Students completing a second degree are monitored like any other student under this policy.

Federal Financial Aid Warning
The first-time students do not meet either the qualitative or quantitative standards, they are notified by email that they are currently not meeting SAP and placed on warning. The student will be on warning until the next SAP review. Under warning, students are still eligible for federal financial aid.

Federal Financial Aid Suspension
Students on warning who are still not making SAP after a semester are placed on suspension, meaning they are ineligible for federal financial aid. Students are notified of their suspension status by email. A student has the right to appeal the suspension.

Suspension Appeal Process
Students under suspension have the option to appeal so as to regain federal financial aid eligibility. It is up to the student to initiate an appeal. Academic reinstatement back to the seminary does not also provide reinstatement of federal financial aid eligibility, nor does a leave of absence. The only way to regain federal financial aid eligibility is to begin making SAP or to successfully make an appeal while on suspension.

An appeal is reviewed based on documented extenuating circumstances impacting academic performance. Exenuating circumstances are past events that will no longer impede future academic success. Some examples of extenuating circumstances to be considered for appeal: Serious illness or injury, death of an immediate family member, significant physical or emotional trauma, military service, or other unexpected circumstances beyond the control of the student.

Students filing an appeal with the Financial Aid Office should do so within two weeks of being notified of suspension. The appeal should provide details on the extenuating circumstances, why those circumstances will not impact future academic success, and an academic plan
approved by the student's advisor. The appeal will be reviewed by the Appeals Committee; the decision of the committee is final. The student will be notified of the outcome. Federal financial eligibility will be reinstated to those students who successfully appeal. Students whose appeals are denied continue to be ineligible for federal financial aid, but this does not affect their academic standing.

**Financial Aid Probation**
A status the seminary assigns to a student who is failing to make satisfactory academic progress and who successfully appeals. Eligibility for aid may be reinstated for one payment period.

**Return to Title IV (R2T4) Policy**

This policy describes the conditions and processes required by federal regulations that Garrett uses to determine the amount of federal student aid that the student "earned" and return the "unearned" disbursed funds to the U.S. Department of Education. Federal student aid herein referred to as Title IV funds/aid is awarded under the assumption that a student will attend Garrett for the entire period in which federal financial assistance is awarded. Students who accept or intend to accept Title IV funds begin earning Title IV funds on the first day of classes in accordance with Garrett’s Academic Calendar.

Federal regulations mandate the return of unearned Title IV funds (Federal Direct Unsubsidized or Grad PLUS Loan) if a student officially or unofficially withdraws. An unofficial withdrawal is when a student stops attending classes (and earns all W's or F's), on or before completing 60% of all courses in the academic term. This process is called the Return of Title IV (R2T4) and uses the number of days in attendance and the total days in the enrollment period to determine "earned" Title IV funds and return the "unearned" Title IV funds.

Other non-Title IV aid may be contingent upon enrollment status and credit hours. These non-Title IV awards may be adjusted as a result of withdrawal, leave of absence, or less-than part-time status.

**Determining Withdrawal Date**

*Official Withdrawal Date* – this is the date the change of status form is received by the Office of the Registrar of a student’s intent to withdraw.

*Unofficial Withdrawal Date* – this is the mid-point of the term or the last documented date of attendance in an academically related activity (e.g., documented attendance in a class or lab or submission of an assignment in an online course), whichever is later.

*Extenuating Circumstance Date* – If a student does not submit the change of status form to initiate the withdrawal process or otherwise provide official notification (including a notice from an individual acting on the student’s behalf) to the institution of their intent to withdraw because of illness, accident, grievous personal loss, or other such circumstances beyond the student's control, the date that the institution determines is related to that circumstance. Substantiation of extenuating circumstances may be required and may vary by the situation; please reach out to the Director of Student Financial Services for additional guidance.

*Failure to Return from Approved Leave of Absence (LOA) Date* – If a student does not return from an approved leave of absence (reviewed and granted by Registrar Services upon
Submission of a change of status form), the withdrawal date then becomes the date the student began the leave of absence. Students must follow the Leave of Absence or Withdrawing from Seminary policy per the Academic Handbook. For Title IV aid, the total number of days under an approved LOA within a twelve-month period (beginning from the date of the initial LOA) may not exceed 180 days.

Any unearned Title IV funds will be returned within 45 days of the date the school determined the student withdrew.

**Determining the Amount of Earned Student Aid**

The amount of Title IV funds that the student earns begins with determining what percentage of the payment period the student completed. The percentage of the payment period completed is calculated by dividing the total number of calendar days completed by the term’s total number of calendar days. Scheduled breaks of five or more days are excluded.

The amount of aid the student has earned is calculated by multiplying this percentage by the total amount of Title IV aid disbursed (and that which could have been disbursed). If the student completed more than 60% of the enrollment period, they would be considered to have earned 100% of the Title IV aid for that period, and no funds would need to be returned.

A student who did not receive all of the funds earned may be due a post-withdrawal disbursement. Please see the Title IV Credit Balances & Post-Withdrawal Disbursements section for more details.

Students who meet all graduation requirements for their program before the end of the payment period are not considered withdrawn and will not go through the R2T4 process.

**Determining the Amount of Unearned Student Aid**

In instances where students did not complete more than 60% of the enrollment period, the institution will determine the amount of aid that needs to be returned to the Department of Education. The amount of Title IV aid that must be returned is based on the percentage of unearned aid. That percentage is computed by subtracting the earned aid percentage from 100%. For example, if the earned aid percentage is 35.3%, the unearned aid percentage is 64.7% (100% – 35.3% earned = 64.7% unearned).

**Determining the Amount the Institution is Required to Return**

Garrett will return the percentage of the unearned Title IV funds that were disbursed, or that could have been disbursed to the federal programs. The funds will be returned no later than 45 days from the official withdrawal date or the last date of attendance. Garrett will return the lesser of unearned aid or an amount equal to institutional charges multiplied by the percentage of unearned aid.

Unearned aid will be returned to the federal programs in the following order:

1st – Unsubsidized Federal/Direct Loans
2nd – Federal PLUS Loans
3rd – Other Title IV Programs

Garrett will bill the student for any account balance created when Title IV aid is returned. Students who officially or unofficially withdraw will retain their access to MyGets and can log in to remit payment on all outstanding balances.

**Title IV Credit Balances & Post-Withdrawal Disbursements**

*Pending Credit Balance Before Withdrawal* – Federal regulations require that a credit balance must be paid directly to the student as soon as possible, but no later than fourteen (14) days after the balance occurred if the credit balance occurred on, before, or after the first day of class of a payment period. There is an exception to this rule if a student withdraws from the institution immediately following receipt of federal student aid. Suppose a credit balance is available after covering all original allowable charges (tuition, fees, and institutionally provided room and board) for the payment period. In that case, the institution will postpone releasing that credit balance within the standard 14-day window until the date of determination is established and the R2T4 calculation is complete. Please note that pending credit balances may be reduced or eliminated following earned vs. unearned aid calculations. If the R2T4 calculation results in a credit balance on the student's account, the credit balance will be disbursed within 14 days of the R2T4 calculation being performed.

*Post-Withdrawal Disbursement* – A student that receives less Title IV aid than earned will be offered a disbursement for the amount of earned aid that was not received. Any post-withdrawal disbursement made must meet the required conditions for a late disbursement.

When processing a return of Title IV calculation, originated loan disbursements, but not disbursed are included as "aid that could have been disbursed," given the student has a signed master promissory note.

Post-withdrawal loan disbursements will be credited to a student's account for outstanding allowable current semester charges or paid directly to the student. Before making any disbursement, the student must be notified in writing within 30 days of the school's determination that the student withdrew. This communication is referred as a post-withdrawal notification (PWN). The PWN will identify the type and amount of the funds. If loan funds are available, the PWN will explain that the student has the option to accept/decline all or part of the loan. The PWN must also inform the student that a response must be received within 14 days of the date of the notice. Any charges not covered by the post-withdrawal loan disbursement are still liable to be paid by the student. If the school does not receive a response, no further disbursement is made. If the response is received in a timely manner, the funds must be disbursed within 180 days. Exceptions can be made at the discretion of the Director of Financial Aid or responses received after 14 days. If the request is denied due to a late response, the student will receive written notification.

**Refunds and Student Account Disbursements**

The tuition for any classes dropped within the drop period will be 100% refundable to the student. There will be NO TUITION REFUND for any class dropped after the drop period. Please refer to the most recent Academic Calendar for the exact date. Exceptions to this policy,
such as a medical emergency, will be evaluated individually. Any class dropped after the drop period will be recorded on a student’s transcript as withdrawn.

After the drop period, the Director of Financial Aid will disburse all federal award money to students. Students receiving federal loans will not be allowed to request a disbursement from their student accounts until after the drop period. In the event of an emergency, students can contact the Director of Financial Aid regarding a potential emergency loan (more on this below).

Any credit balance caused by a Direct Unsubsidized Loan and/or Grad PLUS Loan will automatically generate a refund to the student within 14 days of disbursement. When a student’s account reflects a credit balance not generated by federal loans, this balance may be withdrawn by sending a Check Refund & ACH form to the Bursar at student.refund@garrett.edu. We highly recommend setting up direct deposit for timely issuance of refunds. Refunds are typically processed on Wednesdays for any request submitted by 4:30pm on the preceding Tuesday. Students will generally receive the refund on Thursday if processed as an ACH. If a physical check is issued, this can typically take 5-7 business days.

Credit balance” means any amount remaining after all charges are paid for the term, including apartment rent, parking, and utility fees for apartment residents.

The Bursar will evaluate each account individually to verify the amount available for withdrawal. No funds may be withdrawn from a student account that has a debit balance (i.e., money owed to the seminary).

**Emergency Loans**

An emergency loan may be requested when circumstances warrant a declaration of an emergency (i.e., an unexpected circumstance, not an inadequate budget). Up to $500 may be borrowed without interest, on the condition that the loan is paid back by the end of the semester. Only one emergency loan is available per student, per academic year. Any funds coming into the student’s account (loans, scholarships, etc.) are applied to the emergency loan first. Circumstances will be reviewed by a committee and the student will be notified of a decision. If an emergency loan is offered, a student must complete a promissory note.

**Potential Errors in Financial Aid Awarding**

Though the Office of Financial Aid works to minimize awarding errors, system and/or human errors may occur. In the event that an awarding error occurs, the Office of Financial Aid will work to resolve the issue and notify student(s) as quickly as possible. The Office of Financial Aid will not be held liable for honoring funds that may be made in error.

**Frequently Asked Questions**

**Types of Aid**

**Q1: How do I apply for scholarships at Garrett-Evangelical Theological Seminary?**
Every degree-seeking student receives an institutional scholarship that covers a percentage of tuition and is awarded upon admission. The scholarship applies to the total number of credit hours required for the student's degree program.

Q2: Can I petition to have my institutional scholarship increased?
Institutional scholarships are set at the time of matriculation. This is a promise to students that scholarships will not be reduced, but they also won't increase.

Q3: What is the difference between a Subsidized and Unsubsidized Direct Loan?
Subsidized loans do not accrue interest while a student is enrolled at least half-time in a degree-seeking program. Interest begins accruing immediately on an unsubsidized loan regardless of a student's enrollment status. Direct unsubsidized loans are available to students in graduate/professional degree programs, but subsidized loans are not.

Q4. Do I have to reapply for financial aid every year?
If you plan to borrow a Federal Direct Unsubsidized or PLUS Loan, you will need to complete a FAFSA application each year at [www.studentaid.gov](http://www.studentaid.gov).

Q5. I received an outside scholarship. Where do I report this?
If you are receiving any kind of financial aid from an outside source, you must report the scholarship to the Bursar's Office and Office of Financial Aid. Outside scholarships are counted as aid towards your Cost of Attendance and can potentially lower the amount you are able to borrow.

Applying for Aid

Q1: When should I submit my FAFSA?
FAFSA applications can be completed as early as October 1 for the next academic year. For graduate students there is no need to apply early. We do recommend you complete your FAFSA in the early summer to ensure timely award processing.

Q6: How do I apply for a Direct Grad PLUS loan?
If you've maximized your Unsubsidized Loan eligibility, you can apply to borrow funds up to the Cost of Attendance through the Direct PLUS Loan program. This loan requires a credit check and can be applied for at [www.studentaid.gov](http://www.studentaid.gov).

Q7: How long does it take to process my FAFSA submission?
Depending on the time of year, FAFSA applications are typically imported on a weekly basis. It can take approximately 2-3 weeks for your FAFSA to be reviewed and aid to be offered (if applicable).

Eligibility for Aid

Q1: What are the general qualifications of federal aid?
In general, there are three important qualifications:
1) be a United States citizen or permanent resident
2) be admitted and enrolled at least part-time in a program leading to a degree
3) not be in default on a federal educational loan or be going through bankruptcy

It is important to remember that final federal eligibility is determined through the Office of
Financial Aid after the submission of a FAFSA. Final eligibility is communicated to you by the aid offer email sent by the Office of Financial Aid.

**Q2: I/My spouse/My parents made a lot of money last year. Could I still be eligible for federal aid?**
Yes. For financial aid purposes, you should know that graduate students are considered *independent* regardless of age or tax-filing status. Unsubsidized Loans do not consider personal finances when determining eligibility.

A graduate student can also be considered for Federal Work-Study (FWS) which is based on financial need. That means that the student’s Estimated Family Contribution (EFC), which considers the income of the student's spouse also, is used to determine eligibility.

**Q3: What GPA do I need to remain eligible for aid?**
Scholarship stipulations require students to maintain a cumulative 3.0 GPA. Federal aid requires students to maintain Satisfactory Academic Progress, which indicates that master's degree and Doctor of Ministry degree students must maintain a 2.5 cumulative GPA, and doctor of philosophy degree students must maintain a 3.0 cumulative GPA.

**Q4: What happens if my GPA is below the required minimum?**
If you do not maintain the minimum GPA required for your scholarship, then your institutional scholarship will be reduced to a 25% scholarship. When you once again begin meeting your GPA requirement, your scholarship will be awarded at the original rate.

If you do not maintain the GPA required by the Satisfactory Academic Progress standards you risk losing access to federal loans and Work-Study.

**Processing Aid**
**Q1: How can I get an outside scholarship processed?**
In most cases, scholarship donors will send checks directly to Office of Financial Aid for processing, but not always. If a donor sends you a scholarship check, federal law requires that you report it to the Office of Financial Aid immediately.

If an outside donor wants to send a scholarship check to the school on your behalf, they can make the check payable to Garrett-Evangelical Theological Seminary and include your name and student identification number. The check can be sent to the school address in care of the Bursar’s Office. Once received, an outside scholarship will be placed on the student account as anticipated aid until the aid is officially disbursed (after the add/drop date).

**Receiving Aid**
**Q1: When are funds disbursed?**
Institutional scholarship and federal loans are disbursed after the add/drop period is over for the term (about two weeks after classes begin).

**Q2: When will I have access to excess financial aid?**
If a student is borrowing a loan that creates a credit balance, the Bursar’s Office will release those funds to the student within two weeks of disbursement (typically about a month after classes begin).
Q3: How can I use my financial aid to buy my books?
Financial aid funds are applied to any outstanding directs education expenses such as tuition, housing, fees, etc. Any remaining funds/overage can then be used towards the purchase of textbooks and other educational expenses associated with attendance.

Q4: Can I keep excess financial aid on my student account?
If your funds are being generated due to federal loans, we will automatically release those excess funds. If you wish to apply those back to your account, you can do so, but we will not be holding any excess funds created by federal loans.

Q5: I have previous student loans. Do I need to keep paying for them while in school?
If you are registered at least half-time each semester, your student loans are eligible for in-school deferment status. While in deferment you are not required to make payments, but unsubsidized loans will still accrue interest. The Office of the Registrar will update the National Clearinghouse, which will automatically update your repayment status. Some school-based Perkins loans do not use the Clearinghouse, so it is up to you to check and, if needed, individually request deferment status.

Q6: How do I calculate my institutional scholarship?
For master's degree students, institutional scholarships cover a percentage of tuition. So, first calculate your tuition for the term: credit hours x credit hour cost = tuition. For scholarship aid a student must be at least half-time for the fall and spring semester. Scholarships require students to maintain a minimum GPA and registration requirements.

Example:

$875 cost per credit hour, 11 hours registered, student has a 50% scholarship
$875 x 11 = $9,625 tuition
$9,625 x 50% = $4,813 scholarship
